

# Forgetfulness

Downplay

This is not the way I wanted it to be, she wasted wonderful on me

She still waits everyday, waiting patiently for even a phone call to come from me

She listens to the songs that she got from me when she cries herself to sleep

When everything is wrong, I pretend that I can't see  
She wasted wonderful on me

So fuck forgetfulness, I was the loneliest  
Right back in the stress where I was before

I dug through my closet and found an old picture of you  
Realized that someone new would have what I found with you  
Then I'd give them something I always knew

So in time's been undergound, I found  
I don't know if I can turn around

So fuck forgetfulness, I was the loneliest  
Right back in the stress where I was before

I dug through my closet and found an old picture of you  
Realized that someone new would have what I found with you  
Then I'd give them something I always  
Sometimes I fall in love again, these mistakes that can be your friend  
No matter where it is I've been, the cycle repeats itself again

So fuck forgetfulness, I was the loneliest  
Right back in the stress where I was before

Today, I dug through my closet and found an old picture of you  
Realized that someone new would have what I found with you  
Then I'd give them something I always  
Sometimes I fall in love again, these mistakes that can be your friend  
No matter where it is I've been, the cycle repeats itself again
