

# Goodbye

## Downplay

I'll find you  
I'll steal you  
I'll never let you go until I smother you  
I'm convinced that you're my queen  
You've never even spoke to me

I never mean to  
I never want to  
I just need to own you  
You think I'm not your kind  
You think I'm wasting time  
I'm gonna make you mine

I'll find a hole in you and bleed it dry  
I'll be the rain cloud on your blue sky  
So don't tell me you love me  
Just tell me goodbye  
Just tell me goodbye

I'll lie to you  
I'm dying to  
I'll do anything I can to be inside of you  
I'm convinced that you're the one  
Until I find another one

I never mean to  
I never want to  
I just need to own you  
You think I'm not your kind  
You think I'm wasting time  
I'm gonna make you mine

I'll find a hole in you and bleed it dry  
I'll be the rain cloud on your blue sky  
So don't tell me you love me  
Just tell me goodbye

(Run away run away)  
Gonna make you mine  
(Run away run away)  
Gonna make you mine  
(Run away run away)  
Gonna make you mine  
(Run away run away)

I'll make you mine  
(Run away run away)  
Gonna make you mine  
(Run away run away)  
I'll make you mine  
(Run away run away)  
Gonna make you mine  
(Run away run away)  
I'll make you mine

I'll find a hole in you and bleed it dry  
I'll be the rain cloud on your blue sky

So don't tell me you love me  
Just tell me goodbye

I'll find a hole in you and bleed it dry  
I'll be the rain cloud on your blue sky  
So don't tell me you love me  
Just tell me goodbye  
Just tell me goodbye  
Goodbye  
Just tell me goodbye
