

# Overboard

## Downplay

I swallowed thoughts of hopelessness  
In the end they won't digest  
I wear trophies 'round my neck, of all my failed conquests  
I set my sails into the wind  
Time to find the rocks again  
And with these water's rushing in, I descend

Did you even look for me  
When I lost my way at sea? (No!)  
Let me in (Let me in, Let me in)  
Don't let me fall into the end (Let me in, Let me in)  
I am overboard again

I'm falling under, can't escape  
Chained to me like ten-ton weights  
I'll fight to hold you  
Break my grip  
Like a rat on a sinking ship  
Cast a line before the waves rise and carry me away  
And with these waters rushing in, I descend

Did you even look for me  
When I lost my way at sea? (No!)  
Let me in (Let me in, Let me in)  
Don't let me fall into the end (Let me in, Let me in)  
I'm down here drowning  
Let me in (Let me in, Let me in)  
Don't let me fall into the end (Let me in, Let me in)  
I am overboard again

And you only pick me up to drag me down  
You suffocate the air when you're around  
Screaming, "SOS", into the air  
But you only stare, you just stare

Did you even look for me  
When I lost my way at sea? (No!)  
Let me in (Let me in, Let me in)  
Don't let me fall into the end (Let me in, Let me in)  
I'm down here drowning  
Let me in (Let me in, Let me in)  
Don't let me fall into the end (Let me in, Let me in)  
I am overboard again. (Overboard! Overboard!)  
I am overboard again. (Overboard! Overboard!)  
I am overboard again
