

Save Me

Downplay

Pour it all out bring me down for another day.
Nobody's gonna save me now.
Empty it out let me drown let me drift away.
Nobody's gonna save me now.

Stuck in a rut with a dirty habit
thats always dragging me down.
Im sick of it.
I've got your beady eyes beating down on me.
Wish I could turn this around. It's killing me.

I need a hand in letting go.
Cause every day begins the same so.

Pour it all out bring me down for another day.
Nobody's gonna save me now.
Empty it out let me drown let me drift away.
Nobody's gonna save me now.

Think I can change, I can change for a bit,
I'll have my own brand of hell by the end of it.
And if you chainsaw through the walls around me,
you'll find an empty shell of what I used to be.

I need a hand in letting go.
Cause every day begins the same so.

Pour it all out bring me down for another day.
Nobody's gonna save me now.
Empty it out let me drown let me drift away.
Nobody's gonna save me now.

Pour it all out bring me down for another day.
Nobody's gonna save me now.
Empty it out let me drown let me drift away.
Nobody's gonna save me now.

I'm stuck in my own design
with no one here but me.
I'm leaving this all behind.
There's nothing left for me.

Pour it all out bring me down for another day.
Nobody's gonna save me now.
Empty it out let me drown let me drift away.
Nobody's gonna save me
save me now.

Pour it all out bring me down for another day.
Nobody's gonna save me now.
Empty it out let me drown let me drift away.
Nobody's gonna save me now.

Pour it all out bring me down for another day.
Nobody's gonna save me now.
Empty it out let me drown let me drift away.
Nobody's gonna save me now.

Save me!
Save me now!
Save me!
Save me now!
