

Sleep

Downplay

Don't wake me up
I'm trying to be patient
Why should I leave?
I don't wanna see the sun today
But it's up, I'm awake
But I'm vacant
I need reprieved
Cause I'm sleeping my life away

Beautiful picture
Became a torture
Sweet face from before
Became an eyesore
Messages adored
Nails on a chalk board
Nothing can save me
Until I get the remedy

You're the reason, I gotta take pills to sleep
Every night, every night of the week
In a tail spin, now
And I'm in to deep
It's alright
Cause I like
Misery

I bomb a house of beer?
All I do is lay here
I don't achieve, in a week what I should bomb in a day?
Hey my dear, my mind has become unclear
Find a relief, and my body will feel ok

Beautiful picture
Became a torture
Sweet face from before
Became an eyesore
Messages adored
Nails on a chalk board
Nothing can save me
Until I get the remedy

You're the reason, I gotta take pills to sleep
Every night, every night of the week
In a tail spin, now
And I'm in to deep
It's alright
Cause I like
Misery

It's OK!

You'll never get, you will never get

Away!

When the covent comes
When the covent comes

You'll never get, you will never get

Away!

When the covant comes
When the covent comes

You're the reason, I gotta take pills to sleep
In a tail spin, and I'm getting in too deep

You're the reason, I gotta take pills to sleep
Every night, every night of the week

You're the reason, I gotta take pills to sleep
Every night, every night of the week
In a tail spin, now
And I'm in to deep
It's alright
Cause I like
Misery

You're the reason, you're the reason, you're the reason, you are the reason
You're the reason, I gotta take pills to sleep
Every night, every night, every night of the week
