

Wasted

Downplay

I got wasted again with myself
Because I'm just a friend, that's what you said
You notice when you feel fine, never chose, never be mine
Not here for you this time, gotta take time to get you out of my mind
Take time to find yourself, you can't be someone else
There's more to life than yourself, take back the shit you did

Got wasted, wasted, wasted again
I'm not beloved, there's no reason
Got wasted, wasted, wasted again
I'm not beloved, there's no reason

You notice when you feel fine, never chose, never be mine
Not here for you this time, gotta take time to get you out of my mind
Take time to find yourself, you can't be someone else
There's more to life than yourself, take back the shit you did

Got wasted, wasted, wasted again
I'm not beloved, there's no reason
