As long as we got the will to drive with that PMA
Face to face we can multiply, confront and slay all day
Seven seals will be broken and mysteries will be explained
Modern equations of data will be tested in the flames

Don't let don't let don't let them take it away

Fighting again

The virtuous can never relinquish escaping all final damnation
The crown of Life your blameless belief attests your foundation
Don't accept eternal death as a destiny
War and violence and great distress our reality
No rest
A haze of your vision intense challenges test in repetition

Don't let don't let don't let them take it away

If expression is restricted it will lead to such a tremendous loss
The magnitude of this possibility should never be forgot

How much control of our thoughts do we really want to surrender
Are we really in possession of our individual vision and measure
