

On Lock (Only The Defest)

Downset

My door is open but not by much
As I get closer to heaven I watch you turn to dust
Blessed is my protection blessed is my protection
Consequential to you and the essence of your chosen direction
I'll bring forth the wisdom in the face of calamity
We've built the truest fortress because it's a family

Run it hit it pull it off for the squad
Amplify with a greatness and crush all the odds
Who's going to lift you up to your highest place
A homie who cares with the right traits
Make no mistakes we gravitate to the grates
We see all the daughters and keep them at arm's length
We know who to nurture and who to replace
Camaraderie full of a maximum Grace

So they want to grow up let's see what they got
We only link with the defest put it on lock
So they want to grow up let's see what they got
Put it on lock, put it on lock

Been out here on an active stretch
Must pass the test like a bulletproof vest
Can you do it for life do it best by breath
Everything that you are that's the request
Feels right to be around with the right team
A treasure a vision leads to the right means
A shield to lions who prey on our day
Your misfortunate ambush will only decay

So they want to grow up let's see what they got
We only link with the defest put it on lock
So they want to grow up let's see what they got
Put it on lock, put it on lock

You speak peace to me but I know what's in your soul
When a hard hour inflicts us your face will turn so cold
My reasoning is just I rescued by this lesson
Would never subjugate you to fire or sorrows of oppression
The gift you inherited upon your very first breath
Is a fraction of your redemption as I witness I reflect

Who's going to bring the best in me
Who do I hold in destiny
Who's going to break my enemy
Who do I want right next to me

You the one who won't expire
Critical visionary heart of a fighter
You know what it takes mind of a lifer
Rejoicing and harmony the ultimate cipher
Wickedness can do no harm
Responsible justice no alarms
Guided by light we could never stumble
Strength from the palace we stay humble
Yeah!
