

# Ready For This

Downset

Crush it!  
Crush it!

Only by the Grace of Heaven  
Do I make my way  
And the sunrise speaks truth to me  
For Mercy underway  
It's our decision to care or not  
And I'm listening to what you say

Days to come  
Any situation  
Days to come  
Any situation

Ready for this, ready for this  
No limitations  
Ready for this, ready for this  
Got to let them know

It's not about me it's all about us  
In a system so frigid and unjust  
Can't burn us up in the Lion's den  
Splinter returns whole ain't no dead ends  
Will you mock me because of what I say  
My honesty is my answer this will never decay

Ready for this, ready for this  
No limitations  
Ready for this, ready for this  
Got to let them know  
Ready for this, ready for this  
No limitations  
Ready for this, ready for this  
Got to let them know

Crush it!

Obstacles lay in ruin  
And there's no turning back  
I'm no different than anybody  
Defending against the attacks  
I know someone is listening  
To what I say today  
This humble devout approach  
I will never betray

Ready for this, ready for this  
No limitations  
Ready for this, ready for this  
Got to let them know  
Ready for this, ready for this  
No limitations  
Ready for this, ready for this  
Got to let them know
