Won't Forget

Downset

Do you remember
Do you, do you remember
Do you, do you remember
Do you, do you remember

I knew what was popping off in the streets
Was correct my prayer was sent calculated to depths with pierced intent
The move by move will remained in step
I had a feeling and it came from the right place
Couldn't give up on myself and watch my life waste
They had no love on us or this hybrid game
Yo I never did it for fame

Busted out of the shackles and chains
Had limited options but so much to gain
Manifestations of soul food remains
The vision connected overcame all the pain!

Do you remember
Do you, do you
Do you remember
Won't forget that! Won't forget!

Had to shine with the highest intensity
A voice with the chemistry, I'll come eyes with a clarity
Channel prosperity make peace with an enemy
Kick something unique and build what was meant to be
Had to be blessed when no one else was around
No food no gear no duckets could be found
Nothing would ease up so I vowed
The transformation within me was deep down

Banged up I resisted the threats
Motivated by hopes and the chance to express
Mind of a clean hand foundation was set
When you look in my eyes no I'll never forget

The recollection
Speaks with sincerity
My frequent reflection
Fills me with integrity

Do you remember
Do you, do you
Do you remember
Won't forget that! Won't forget!

I remember when we didn't had nothing!
I remember when we didn't had nothing!
Won't forget that! Won't forget that!
Won't forget that! Won't forget!

No I never did it for fame
Busted out of the shackles and chains
No I never did it for fame
Won't forget that! Won't forget!

Do you remember
Do you remember
Won't forget that! Won't forget!

I remember when we didn't had nothing!
I remember when we didn't had nothing!
Won't forget that! Won't forget that!
Won't forget that! Won't forget!
