All In

Downstait

So you think that you got me
Beat me down, beat me down, do you think you're on top
Well I'm not where you left me
I've been picking up steam and I picked myself up
I'm stronger this time
Ready to defy
And no matter what you do I'm never gonna stop

Are you sure that you want it
Is the fire in your soul gonna keep you warm
Is this the prize that you covet
Did you find the reason that you were born
And if it's not
You better step aside
Because I'm coming for it, coming for it

I'm all in
This is rage this is war
Not falling
Here to settle every score
Do you wanna have it all, do you wanna have control
Are you all in

So you think you can stop me
Guess again, guess again, it's a chance you should doubt
Your little plan isn't likely
You can try, you can try but not in my house
You had your time
Get back in line
Or you can see for yourself and learn what I'm about

Do you truly believe it
Does the drive in your heart keep you alive
Can you climb to the summit
If you make it what do you think you'll find
You'll see my eyes
Then we collide
Because I'm coming for it, coming for it

I'm all in
This is rage this is war
Not falling
Here to settle every score
Do you wanna have it all, do you wanna have control
Are you all in

I'm all in
This is rage this is war
Not falling
Here to settle every score
Do you wanna have it all, do you wanna have control
Are you all in

Welcome in, are you ready to bleed tonight
This is my world, do not forget
Now you're here, and there is no escape in sight
Hope you're ready to be all in

All in
All in
The end

I'm all in
This is rage this is war
Not falling
Here to settle every score
Do you wanna have it all, do you wanna have control
Are you all in

I'm all in
This is rage this is war
Not falling
Here to settle every score
Do you wanna have it all, do you wanna have control
Are you all in
