

Abominator

Doyle

Yeah!

The streets are running red with blood, yeah we gave it to them
So call us Abominator, call us what you will

We'll skin you alive, leave your bodies on stakes,
We'll burn down your homes, and piss on your graves,
Dishonor, Dismember,
Discredit, Destroy,
Let nothing survive, this is total war

Now the shit won't end, by my hand
You will pray for death
Abominator!

And we're like the hands of god, just drifting round your neck
Ripping your skulls apart, to drink out of your heads

We'll skin you alive, leave your bodies on stakes,
We'll burn down your homes, and piss on your graves,
Dishonor, Dismember,
Discredit, Destroy,
Let nothing survive, this is total war

Now the shit won't end, by my hand
You will pray for death
Abominator!

Now the shit won't end, by my hand
You will pray for death
Abominator!

Yeah!

(FUCK EM UP(?))

So let darkness rise,
Your world will die
See the abominator growing in our eyes,
And say your last goodbyes

Now the shit won't end, by my hand
You will pray for death
Abominator!

Now the shit won't end, by my hand
You will pray for death
Abominator!

We're your annihilator,
Your world's (?) devastator
Bloody decapitator,
Abominator!
