

Beast Like Me

Doyle

Don't look my way there is a wolf in my blood
If you see him coming, you better run
I don't think you understand just what is going on
Every beast has got a right to roam

And a beast like me likes you
To f*ck
To feed
To fill all my needs
Under the moon
Just like the star
Five pointed in my claw

I just can't help myself, I'm hot on your trail
Your scent attracts me to your doom
The carrion killers circle high above our heads
I guess the vultures smell it too

They know a beast like me likes you

To f*ck
To feed
To fill all my needs
Under the moon
Just like the star, five pointed in my claw

You're in my claw
You're in my claw
You're in my claw
You're in my claw

Because a beast like me likes you
To f*ck
To feed
To fill all my needs
Under the moon
Just like the star
Five pointed in my claw

We are one with the night
So say goodbye to your life
Under the moon
Just like the star
Five pointed in our hearts
