

# Bad Cold

DPR IAN

Telephone ring the unknown  
What you want?  
My friends don't leave me alone  
Yeah, yeah, yeah  
The night is getting too old  
My feelings on hold  
Never been so bold  
We've been here before

Take me down to the coast on Sunday morning  
I gotta shake off this bad cold  
I wanna see the world with you, oh darling  
But just gotta shake off this bad cold

I just wanna shake off this bad cold  
I just wanna shake off this bad cold

My enemies do not know  
I cut them slack  
My lasers ready to blow  
Yeah, yeah, yeah  
I tell myself to let go  
But don't let it show  
You'll get them involved  
We've been here before

Take me down to the coast on Sunday morning  
I gotta shake off this bad cold  
I wanna see the world with you, oh darling  
I just gotta shake off this bad cold

I just wanna shake off this bad cold  
I just wanna shake off this bad cold

The crosswalk is on red light  
Wavy lines running through your hair  
And you're no longer here  
Have you ever been here?

The crosswalk is on green light  
I miss the moments when I really cared  
But you're no longer here  
Have you ever been?

Your eyes are running cold  
Sometimes it's hard to show  
I lied to let you go  
And now you'll never know
