DPR IAN

MITO

I'm in a winterfall  
You're the only one I want to  
In a winterfall  
I'm in a winterfall

Can you get this boulder off me?  
No God in me  
I fall on my knees  
The world will see  
The war in me  
It's all I need  
When you see me loving  
You

Tell me where I went wrong on the surface  
I set my wings ablaze  
Cause I thought you would barely notice  
Tell me what you want from me  
It's killing me  
And I'll still commit  
Cause you fucked with me

Oh it's mutiny  
It's not new to me  
That it just came down to  
You're the only one I want to

In a winterfall  
I'm in a winterfall  
You're the only one I want to  
In a winterfall  
I'm in a winterfall

You got me carelessly  
Looking so cautious  
You drilled into my brain  
Went dead  
And I lost you in the process

So tell me why you went for me  
It's killing me  
And I'll still commit  
Cause you fucked with me

Oh it's mutiny  
It's not new to me  
That it just came down to  
You're the only one I want to

In a winterfall  
I'm in a winterfall  
You're the only one I want to  
In a winterfall  
I'm in a winterfall

Now I get what you mean  
When it hurts you  
Now I get what you mean  
When you want to feel  
Oh I get it  
No I get it  
I get what you mean  
When you wanna see something  
You're the only one who made me feel like something  
Feel like something

In a winterfall  
In a winterfall  
In a winterfall  
In a winterfall  
In a winterfall
