

I Believe

Dr. Alban

That heaven is for everyone
That heaven is for everyone

Listen to what your heart and your soul says
Come on, you gotta open up your mind, yeah
You got the freedom, don't close the door
Wake up, wake up, it's time to start to believe

I had the stories, I've read the book
There is the future, the future, just take another look
Come on, believe it, I'll make it right
Don't give it up, now it's the time you will see it

I believe that heaven is for everyone
If you believe that heaven is for everyone
I believe that nothing is impossible
Over and over I do believe it's true
I do believe, we're climbing highest mountain top
Just open up and let it in
If you believe, rescue me from deepest sea
Over and over I do believe it's true

Listen to what your heart and your soul says
Come on, you gotta open up your mind, yeah
You got the freedom, don't close the door
Wake up, wake up, it's time to start to believe

I had the stories, I've read the book
There is the future, the future, just take another look
Come on, believe it, I'll make it right
Don't give it up, now it's the time you will see it

I believe that heaven is for everyone
If you believe that heaven is for everyone
I believe that nothing is impossible
Over and over I do believe it's true
I do believe, we're climbing highest mountain top
Just open up and let it in
If you believe, rescue me from deepest sea
Over and over I do believe it's true

I believe that heaven is for everyone
If you believe that heaven is for everyone
I believe that nothing is impossible
Over and over I do believe it's true
I do believe, we're climbing highest mountain top
Just open up and let it in
If you believe, rescue me from deepest sea
Over and over I do believe it's true

I believe that heaven is for everyone
If you believe that heaven is for everyone
I believe that nothing is impossible
Over and over I do believe it's true
I do believe, we're climbing highest mountain top
Just open up and let it in
If you believe, rescue me from deepest sea

Over and over I do believe it's true
