

## Can't Remember

Dr. Dog

Oh, every now and then I don't know why.  
Can't keep a hold of myself.  
I bring up change, but I feel it happening again.  
'Cause I've been scared to death since I was born.  
Afraid of everyone else, Afraid of myself.  
Well it's all I've ever known.

Well, I can't remember too much more,  
but I remember what your love is for.  
Everything else, it's gone out the door.  
Well, I remember what your love is for.

Well I've been gone so long it don't feel strange.  
I don't know anyone here.  
I'm far far away every other day.  
But every now and then I feel okay.  
Try to say goodbye to myself.

Auf Wiedersehen, but there ain't no way I can.

Well, I can't remember too much more,  
but I remember what your love is for.  
Everything else, it's gone out the door.  
Well, I remember what your love is for.

Well I pick myself up, off the floor,  
'cause I remember what your love is for.  
Everything else, it's gone out the door.  
Well, I remember what your love is for.  
Well I can't remember too much more,  
but I remember what your love is for.  
Well, pick myself up, off the floor,  
'cause I remember what your love is for.
