

Heart Killer

Dr. Dog

You should see the way you walk, the way you cut your hair
You should hear what the neighbors say, the way the neighbors stare Everyone
's got a different story but I got mine the hard way
Why'd I gotta go and give my heart to a heart killer

Heart killer

I can't breathe when I hear your name
You're in my veins and you're eating my brain

I saw you dancing in the basement
You were miles away
Part of me wanted it all to burn and part of me wanted to stay How could thi
s be meant to be when what I want is dead to me Why'd I gotta go and give my
heart to a heart killer

I can't breathe when I hear your name
You're in my veins and you're eating my brain

Promises only broken
Spitting in my hand
We made a floor
We made a love
Castles made of sand
Baby you love like a love leaver,
Just a touch and it's time to go.
Why'd I gotta go and give my heart to a heart killer
