

# Fallin Up

Dr. Dre

(Eyes, only, we gon' see)  
(These, eyes, only, we gon' see)

Yeah, what goes up originally comes down  
Let the dollars levitate as the world goes round from the ground Keep fallin'  
' up (Keep fallin' up)  
Keep fallin' up (Keep fallin' up)  
As I fall up on this sentence so hot (Envy)  
Can't feel it unless I put my hand on it like the killer did my money  
Keep fallin' up (Keep fallin' up)  
Keep fallin' up (Keep fallin' up)

Now that I got my shit together, better than ever  
These motherfuckers habitualize like steppers  
Make a nigga wanna write a Dear John letter  
Hm, make her disappear, had to get the Penn and Teller  
A best seller, interstellar, good fella  
This a long kiss goodnight, ciao, bella  
My Airforce Ones steppin' on that Air Force One  
Leavin' fuckin' footprints on the sun  
Thirty-six shots and I only just begun  
One man band soundin' like a hundred drums  
Make that ass clap back, rum-pum-pum-pum  
Give it to me raw, that shimmy-shimmy, all that  
Brand new Ford Mach, this is what you call that  
You don't see that caution tape? Nigga better fall back (Heh)  
I got Hov on the line, I gotta call back  
Life's a bitch, and I'm takin' off the ball strap

Well, they don't make real niggas like (These)  
Gone with it, bitch, you could see it in my (Eyes)  
Post somethin' for them real motherfuckers (Only)  
Oh, you a boss in this motherfucker? (We gon' see)  
No, they don't make 'em like (Me)  
Envy is a motherfucker, see it in they (Eyes)  
Private invitation, this is members (Only)  
Fuck what you thought, niggas love to talk (We gon' see)

Yeah, what goes up originally comes down

Keep fallin' up (Keep fallin' up)  
Keep fallin' up (Keep fallin' up)

I hit you with no delayin', so what you sayin', yo?  
Last nigga that tried to play me was on the radio  
Hear we go, light up my career, built off dope  
Got everybody rollin' The Chronic, tryin' to smoke  
Okay, fuck it, get high  
Trendset, deny  
Niggas swear they could compete, shit, I just sit by  
Put a bunch of motherfucking Crips on the red-eye  
Pay to get that ass removed, now that's a goodbye  
Allow me to reintroduce myself

It's that same nigga from the bomb city, who else?  
Hah, live at the barbecue, genuine article  
I'm fuckin' diabolical, you better call a audible  
I swarm with the killer bees, yeah, it's time to bring that pain  
Shame on the nigga playin' old dirty games  
Shoutout to Long Beach, they goin' insane  
Dollar signs is the set I claim

Well, they don't make real niggas like (These)  
Gone with it, bitch, you could see it in my (Eyes)
