Hit Git And Split

Dr. Feelgood

Hit, git and split, I'm coming back home to you Hit, git and split, I'm coming back home to you There's nobody here gonna take the place of you

I got the blues, my baby's not here with me I got the blues, my baby's not here with me She's a little bitty chick and I'm never gonna let her be

Hit, git and split, I'm coming back home to you Hit, git and split, I'm coming back home to you There's nobody here gonna take the place of you

Clean the house woman, this time I'm on my way Clean the house woman, this time I'm on my way Don't make no plans for I'm coming back home to stay
