As I was walking down the street A pretty girl did I meet She's looking all so sweet Got a major from her head to her feet

I was looking back to see
If she was looking back to see
If I was looking back at her

She glowed with such a beautiful smile She must have been a beautiful child Man she was all so neat A major from her head to her feet

I was looking back to see
If she was looking back to see
If I was looking back at her

Her hair was curly shining bright Her shoes in black were just delight She wore the very best of clothes And also black and nylon hose

I was looking back to see
If she was looking back to see
If I was looking back at her

As I was walking down the street A pretty girl did I meet She was looking all so sweet Got a major from her head to her feet

I was looking back
She was looking back
I was looking back at her

I was looking back to see
If she was looking back to see
If I was looking back at her
