

If you ever need me
Call me on your phone line
You've got my number if you ever want me
I'm your lifeline
And if you're ever lonely
I'm your love-line

If you ever feel sad
Need someone to hold you
when no one knows you or understands you
I do
Cos no one means as much, girl
As you do

Take your time, it's just my heart you're breaking
I don't mind, though my whole world is shaking
I'll be fine

I'm sitting by my window
Wondering where you are now
If ever it should rain
Just remember there's a rainbow
Cos someone thinks about you
Wherever you go

Take your time, it's just my heart you're breaking
I don't mind, though my whole world is shaking
I'll be fine, I'm your lifeline

If you ever need me
Call me on your phone line
You've got my number if you ever want me
I'm your lifeline
And if you're ever lonely
I'm your love-line

Take your time, it's just my heart you're breaking
I don't mind, though my whole world is shaking
I'll be fine, Baby I'm your love-line
Baby, I'm your love-line
Oh baby, I'm your lifeline
Baby, I'm your love-line
Mmm baby, I'm your lifeline
I'm your lifeline
