Dr. John

Haven't got a clue
All I've got is a key
Been in love right now
Still I can't find my way

Started off doin' real good
Sugar just like we should
Now we've got everything
We wanna possess

Tell me is this reality
Or is this a test, I said

Pickin' up pieces, my only weakness
Talkin' bout passion, love never ceases
It's a mad, mad love

Pickin' up pieces, my only weakness
Talkin' bout passion, love never ceases
It's a mad, mad love

Say what?

Talkin' bout the nuclear fission
I'm ready to go fishin' right now
And end this shortage of your love
Right now, right now

I been tryin' to make the right decision
Usin' addition, subtraction, division
Havin' fun, ain't doin' nothin'
Just a, whatchin' a television

Pickin' up pieces, my only weakness
Talkin' bout passion, love never ceases
It's a mad, mad love

There's no therapy
Disco-Therapy
Mad, mad love
Mad, mad love

Pickin' up pieces, my only weakness
Talkin' bout passion, love never ceases
It's a mad, mad love

There's no therapy
Disco-Therapy
Mad, mad love
Mad, mad love
