Huey Smith Medley

Dr. John

I get high blood pressure
When you call my name
I get high blood pressure
When you call my name

I can't groove, with the stuff I use
(Don't you just know it)
Baby don't believe, I'm way into the blues
(Don't you just know it)

I get high blood pressure
When you call my name
High high high high
Hey Joe
Do ba do ba do ba do ba
High high high high
High high high high
Hey Joe

Die die brother, gonna set it on me
(Don't you just know it)
Young girl in trouble, all the Saturday's free
(Don't you just know it)

I get high blood pressure
When you call my name

Baby, you ruled me once
You know I was a fool, for you baby
Oh baby you know that you ruled me once
Baby you know that I was a fool, for you baby
And I swear that I ain't gonna be
You're boppin' along, if I do
If I do, well I'll be John Brown
