

# Let's Make a Better World

Dr. John

The world we know was built on skills, but that alone don't count.

Without the sweat and toil of mine; it wouldn't be worth a dime.

You got to live and give, share and care. Really put some love in the air.

When your neighbor's down, try to pick him up. Nobody can live in despair.

Everybody let's sing, sing, sing? (Let freedom ring)  
(Everybody let's sing, sing, sing?)

Let's all pitch in to do our thing, make a better world to live in.

Everybody let's sing, sing, sing? (Let freedom ring)  
(Everybody let's sing, sing, sing?)

Let's all pitch in and do our thing, make a better world to live in.

Society has no priority, we're all one part of a whole.

When people scream and shout, you hafta hear'em out. Everybody is a beautiful soul.

You gotta pull together, go hand in hand. You really got to do your best.

Wouldn't it be a perfect sight to see: the whole world filled with happiness.

Everybody let's sing, sing, sing? (Let freedom ring)  
(Everybody let's sing, sing, sing?)

Let's all pitch in to do our thing, make a better world to live in.

Everybody let's sing, sing, sing? (Let freedom ring)  
(Everybody let's sing, sing, sing?)

Let's all pitch in to do our thing, make a better world to live in.

Everybody let's sing, sing, sing?  
(Everybody let's sing, sing, sing?)

Let's all join hands and do our thing, make a better world to live in.
