

R U 4 Real

Dr. John

R u 4 real, you keep comin' on too strong
Tell me what's the deal, at this rate we won't last long
You can't turn around, real love is necessary
Got to keep it on growin', in many little ways they vary
Once they try to put me on, made me prove you wrong
Let's get on down right now and really get it on
Girl it's too hot for a summer, it's too cold for a winter
R u 4 real, real, real, real, real, hey, hey, hey, now
R u 4 real, real, real, real, real
R u 4 real, you know your keys don't fit the door
R u 4 real, you know your shoes don't fit the floor
Sometime I wonder why, my ring don't fit your phone
Been a while it's happenin' now, huh, that you're home alone
Your peculiar reality, huh, it make me doubt my own sanity
You hang that jacket on me, just too tight 'cause it don't fit
R u 4 real, real, real, real, real, hey, hey, hey, now
R u 4 real, real, real, real, real
Life's so hard, funny thing it's true
Don't make it harder, tell me what's wrong with you
You been on the dark side of the moon too long
Give me your love, I'll give it right back, twice as strong
R u 4 real, you're like a stranger in the night
R u 4 real or you're just a passin' headlight
(R u 4 real, real, real, real, real)
Yeah, I'm of strange faces that I see
(R u 4 real, real, real, real, real)
Huh, tell you now that you got next to me
(R u 4 real, real, real, real, real)
Yeah, you over tuned your reality
(R u 4 real, real, real, real, real)
Huh, make me doubt my sanity
It's too hot for the summer, it's too cold for the winter
R u 4 real, real, real, real, real, hey, hey, hey, now
R u 4 real?
R u 4 real, real, real, real, real
R u 4 real?
Life's so hard, funny thing it's true
Don't make it harder, baby what's wrong with you
You been on the dark side of the moon too long
Give me your love, I'll give it right back, twice as strong
