

## So Long

Dr. John

Though the night has almost ended  
Some of you are going your way, I'm going mine  
Gee folks I hope you feel contented  
You know you won't be a minute out of my mind

So long  
Hope we'll meet again one day  
Hope'n then that maybe then you'll say  
Darlin' I was wrong  
So long

Gee I hate to see you go  
You're the world to me, darlin' don't you know  
You've been mine so long

All alone with my memories of you  
I can see you're lonely too  
You're my home  
Though we're a million miles apart  
I keep you deep in my heart

So long  
Though you'd leave me to cry  
This could never mean bye bye  
We're just sayin' so long

All alone  
With just my memories of you  
I can see you're lonely too  
You're my home  
Though we're a million miles apart  
I keep you in my heart

So long  
Though you'd leave me to cry  
This could never mean bye bye  
We're just sayin' so long  
We're just sayin' so long
