

# Fly Away

Dr. Sin

No, don't wanna  
Bring you down  
It's lurking all around  
Nobody knows what lies  
Behind the door  
All that I've seen  
I can't take it anymore

Living and dying, loving  
And hating  
(I will show you)  
Look on the other side  
Living and dying, loving  
And hating (take my hand)  
Just searching for a sign

Fly away, through  
Another day  
All the sorrows fade  
Time will heal any  
Pain you feel  
Just fly away

No, no way we're  
Looking back  
Believe me that's a fact

Who do we blame when  
Nothing is left to say  
Always the same when no  
One gives a damn
