

# The Big Screen

Dr. Sin

Lights, camera, action  
The first time I held her hand  
The first time I kissed her lips  
Hot dog, pop corn, I have a coke  
All the magic of the big screen  
All the sudden people start to scream

Everything, everything is possible  
Where all the dreams come true  
Seems so real, even the impossible  
Where all the dreams come true  
Scary, dramatic, fantastic  
She gets so scared, watching frankenstein  
She holds me tight and it feels so fine

It's alive  
Where all the dreams come true  
Seems so real  
Even the impossible  
Where all the dreams come true  
It's alive  
Where all the dreams come true  
Everything, everything's possible  
Where all the dreams come true  
The end
