

## Valley Of Dreams

Dr. Sin

Last night a dream stole me away from reality  
Kind of shook me up  
Left me lying, shaking in a cold sweat

But like the moth of proverbs  
I was drawn into the flame  
So afraid to wake up  
And find myself insane

Why don't you slip away with me  
To this place I've found  
But watch the road you take  
Cause heaven's just a step away from hell

We can make the rules  
Break them anytime  
In the valley of dreams  
We'll commit the perfect crime

We can make the rules  
Break them anytime  
In the valley of dreams  
We'll commit the perfect crime
