

# Long Live The King

Dragged Under

Long live the king  
Long live the king

The king's got his new clothes  
Throw to the wolves  
Those who would dare to oppose  
Blood it will spill  
Heads they will roll  
Down the steps of Capitol Hill

Trade safety, for silence  
New master, same violence  
Obey thee, almighty

Long live the king  
Bless me with authority  
Rule over me  
Or from the gallows I will swing  
Long live the king

Fit for the same crown  
As his father before him  
Where they walk you worship the ground  
Blood it will spill  
And the earth will shake  
As the hangman savors the kill

Trade safety, for silence  
New master, same violence  
Live freely, on your knees

Long live the king  
Bless me with authority  
Rule over me  
Or from the gallows I will swing

The people have spoken, your new god is here  
Let them all hate him, so long as they fear  
So say it with me now  
Louder we sing  
Holy art thou  
Long live the king  
Long live the king

Now it's the season for treason  
With a raised fist  
The disloyal to the royal  
Make the watch list  
Justice lifts her fold to tip the scales  
A poison drips from the mouth that sips the holy grail

Long live the king  
Bless me with authority  
Rule over me  
Or from the gallows I will swing

Long live the king

Bless me with authority  
Rule over me  
Or from the gallows I will swing  
Long live

The people have spoken, your new god is here  
Let them all hate him, so long as they fear  
So say it with me now  
Louder we sing

Long live the king  
Long live the king  
Long live the king
