

# Cool Down

Dragon

It's the first hot night in summer  
And I am so confused  
It's the first hot night in summer  
And I am so abused

Wish it would cool down  
Wish it would cool down  
Cool down again

I can feel a storm coming  
And it won't be long  
I don't know what I'm running  
But it feels so strong

Wish it would cool down  
Wish it would cool down  
Cool down again

The girl I want has gone away  
I wish that she would come  
Take hold of me  
I'm waiting now for anything  
That might have stolen me  
I'm smoldering  
Take hold of me-oh-uh-uh-uh

Wish it would cool down (I don't wanna, I don't wanna)  
Wish it would cool down (oh no no no no, let us)  
Cool down again (Lay down again)

Wish it would cool down [scatting]  
Wish it would cool down [scatting]  
Cool down again

Wish it would cool down [scatting]  
Wish it would cool down [scatting]  
Cool down again

I've been waiting and waiting  
All my life waiting  
For you to run  
Wish it would cool down  
Cool down again  
I've been waiting and waiting  
Anticipating for you to run...
