

Love Don't Stop

Dragon

(Love don't stop)

Ever felt the pressure will never go off
Kind of like the feeling of your mind in a box
Wanna take the lid right off the top
To find a place where love don't stop
Now she is a little way down
She's gonna find out now
She's a little way down

We'll find a place where love don't stop
Love don't
Love don't stop
Love don't stop
We'll find a place where love don't stop
Love don't
Love don't stop

Your momma says she don't love you no more
She disapproves of the things you adore
You wish that you could even the score
Sometimes you want shout for more
Now she is a little way down
She's gonna find out now
She's a little way down
Well, she's gonna find out

Find a place where love don't stop
Love don't
Love don't stop
Love don't stop
We'll find a place where love don't stop
Love don't
Love don't stop
Love don't stop

You've got someone you can't forget
Counting the minutes to your next cigarette
They say that you're not old enough yet
What do you do to pass the test?
Your momma says she don't love you no more
She disapproves of the things you adore
You wish that you could even the score
And sometimes you want to shout for more now

Find a place where love don't stop
Love don't
Love don't stop
Love don't stop
We'll find a place where love don't stop
Love don't
Love don't stop

Find a place where love don't stop
Love don't
Love don't stop
Love don't stop

We'll find a place where love don't stop
Love don't
Love don't stop

Find a place where love don't stop
Love don't
Love don't stop
Love don't stop
We'll find a place where love don't stop
Love don't
Love don't stop
