

Midnight Groovies

Dragon

Everybody's gone away
They're all lookin' for the same place
So give a hand to the midnight groovies
Burnin' circles around the air
What's the use if she don't care
It's all right with me

I heard about your best friend
Found her lyin' in a pool of blood
Another hand for the midnight groovies
Jackknives and drunken crowds don't hear me
Grab your mask and see through wine
We're goin' out to kill the night

Say the world is a place that we live in
A Halloween to hide the things we love
Grab your cross and paper crown
There's some water comin' down

Another hand for the midnight groovies
Jackknives and drunken crowds don't hear me
Grab your mask and see through wine
We're goin' out to kill the night

Gonna kill the night
Gonna kill the night
Gonna kill the night
Gonna kill the night
