

Dancing like kids in a movie show
Stepping and sliding in the fire glow
Tell me you're crazy but I don't know
You walk to my door, say my doctor won't give me no more
World turns too fast, don't I know
You're tired and giddy but don't let it show
It's for them to wonder and you to know

You got a lot of things
Pills and things to make your day
You say they're everything
Help you sing away your blues
It's not my place to say you're wrong
If it makes you strong
Helps you through
Carry on

Stepping and sliding in the fire glow
Round and around and around you go
Outrageous my doctor, my doctor won't give me no more
Won't give me no more
Won't give me no more
Won't give me no more

Jumping and jiving in the fire glow
Round and around and around you go
I know

You got a lot of things
Pills and things to make your day
You say they're everything
Help you sing away my blues
It's not my place to say you're wrong
If it makes you strong
Helps you through
Carry on
