New Machine

Dragon

Everybody's talkin' 'bout my new machine
Passes by your window 'bout 6:15
Cock is in the window, crows on the hill
It makes me wonder if they'll burn the still

Dogs they out a-barkin' at my back door
Sally's at the station with a .44
Smile at the policeman 'cause he's on our side
It makes me wonder what you're got to hide
Sometimes I wonder
What you got
What you got

I said lay down lady
I said lay down low
I said lay down woman
I'm gonna love you in my arms and never let you go
Lay down lady
I said lay down low
Lay down woman
I'm gonna take you so far and never ever let you go

Didn't know the difference 'tween wrong and right
Soon stand up the hard way in the middle of the night yeah
Long legged Sally thinkin' she's a queen
It makes me wonder 'bout my new machine
Sometimes I wonder
I wonder

I said, I said lay down lady
I said lay down low
I said lay down woman
Gonna take you in my car right back to Mexico
Lay down lady, come on baby
Lay down low
Lay down woman
Gonna love you every night and never let you go
Lay down lady
I said lay down low, come on
Lay down woman
Gonna love you every night and never let you go

In my heart I understand
You know I'd do anything for you
I love you baby baby
You got to lay down, lay down low
