

Some Strange Dream

Dragon

Late last night, watching it on TV
Disco death - that's how it ought to be

All of the boys, all of the disco girls
Key in his back - king of the disco world
Some strange dream
Dreamt we have to dance forever - you and me
You were a true believer - soul survivor

All of the boys, all of the disco girls
Key in his back - king of the disco world
Some strange dream
Dreamt we have to dance forever - you and me
You were a true believer - soul survivor

This was the winter of our disco tent
We had the music, but we had no rent
It's getting better baby all the time
The revolution is in 4/4 time

On a night like this
For just one kiss
On a night like this
Just one kiss
On a night like this
I would gladly smash the funk machine for just one kiss
One kiss
One kiss
