

Summer

Dragon

Every night from the balcony
I watch the sun fall to the sea
And I can't wait till summer comes
Drive my old Mercedes
Watch the surfer catch the wave
Oh I can't wait till summer comes

Does it really matter
If I want to spend my life this way
Holding out for summer
Coming closer day by day

Palm trees that touch the sky
Pretty girls just walking by
And I can't wait till summer comes
Ripples on my swimming pool
Sitting drinking just a happy fool
Oh I can't wait till summer comes

Does it really matter
If I want to spend my life this way
Holding out for summer
Coming closer day by day

Summer comes...
And I can't wait till summer comes
Till summer comes...
Summer comes...
