

Competition

Dragonette

She's got no idea where you've been
No idea what you've been doin'
You've been living dangerous
You're trying to keep it just our secret

Psst pass it on, come on and pass it on
Psst pass it on, come on and pass it on

Goodness I like this
Mysterious mistress

Keepin' me hush hush
Try not to blush blush

I just can't stop this
It's risky business
Being your mistress
Keepin' me hush

Your girlfriend's got competition
She's got competition
Your girlfriend's got competition
Goodness I like this being your mistress

Your girlfriend's got competition
Your girlfriend's got competition

She's got competition
Someone's gotta be the one to tell her
that we got it going on

You're keeping me out all night long
We eat at fancy restaurants
You're giving me what your girlfriend wants

Somebody's gonna pass it on

Buying me new jewelry
We're holding hands right in the street

You better learn to be discreet
If you wanna keep it just our secret

Goodness I like this
It's risky business
Being your mistress
Keepin' me hush

Your girlfriend's got competition
She's got competition
Your girlfriend's got competition
Goodness I like this being your mistress

Your girlfriend's got competition
Your girlfriend's got competition
She's got competition

Someone's gotta be the one to tell her
that we got it going on
that we got it going on

She's got no idea where you've been
No idea what you've been doin'
In the bedroom
In positions
That you never knew existed

You try to keep it secret
You can try and try to keep it
It's risky business
Keepin' me hush

Your girlfriend's got competition
She's got competition
Your girlfriend's got competition
Goodness I like this, being you're mistress

You're girlfriend's got competition
You're girlfriend's got competition
She's got competition

Someone's gotta be the one to tell her
that we got it going

Your girlfriend's got competition
She's got competition
Your girlfriend's got competition
Goodness I like this being your mistress

Your girlfriend's got competition
Your girlfriend's got competition

She's got competition
Someone's gotta be the one to tell her
that we got it going on
