

My Legs

Dragonette

We start at show time
We stay up all night
I gotta take a break but
But they won't stop, 'till the light's up

It's show time
We stay up all night
I gotta take a break but
But they won't stop, 'till the light's up

I wake up, don't know how I got there
A number written on my arm in a marker
Ten bucks spent on feeling better
And five phone calls,
we'll need to fill in the picture

But right now,
I've got to straighten out and get to work
I should stay in but tonight might be special
I think I can control the urges at first
I do it over, do it over again

I can't stop my legs, my legs go out late dancin'
I try to wash my face, my lips say
