

## Unicorn

You're so mythical  
I can't believe it  
Got that legendary love  
Am I dreamin'  
I've been 'round the world  
You got that magic  
I always thought was fictional  
'Till I had it

Got a flavour like a technicolor candy  
Where did you come from, take me to your planet

West coast boys are dope  
And the east side guys are money  
Yeah I've been around the world  
But I've never seen nothing like you before  
And the northern boys are cool  
And the south side guys are hotties  
Yeah I've been around the world  
But I've never seen nothing like you before

You Unicorn  
You Unicorn  
You Unicorn

It's like I made you up  
In my imagination  
So hungry the way we touch  
A new sensation  
Fantasy or not  
I think your perfect  
You're checking every box I got  
Every box, check check check, yeah

Got a flavour like a technicolor candy  
Where did you come from, take me to your planet

West coast boys are dope  
And the east side guys are money  
Yeah I've been around the world  
But I've never seen nothing like you before  
And the northern boys are cool  
And the south side guys are hotties  
Yeah I've been around the world  
But I've never seen nothing like you before

You Unicorn  
You Unicorn  
You Unicorn  
Unicorn

West coast boys are dope  
And the east side guys are money  
Yeah I've been around the world  
But I've never seen nothing like you before  
And the northern boys are cool  
And the south side guys are hotties

## Dragonette

Yeah I've been around the world  
But I've never seen nothing like you before

You Unicorn  
You Unicorn  
You Unicorn  
You Unicorn  
You Unicorn  
You Unicorn
