

## Winning

Dragonette

Spent all my twennies on you, baby, where'd that go  
I say it straight, you say it's sad, ways with that go  
One cigarette that started all the fire  
Thousand percent, that's what you get, it burns

So don't play me today, it's game over  
And I'm taking away your controller, your control

I've been winning, winning, winning, winning without you  
Don't pull me back in, I've been winning, winning without you  
So don't play me today, it's game over  
And I've been winning, winning, winning, winning, winning

I light it up, you get me back, cost you a decade  
Play what you paid, ends up the same, just what you make it

So don't play me today, it's game over  
And I'm taking away your controller, your control

I've been winning, winning, winning, winning without you  
Don't pull me back in, I've been winning, winning without you  
I've been winning, winning, winning, winning without you  
Don't pull me back in, I've been winning, winning without you  
So don't play me today, it's game over  
And I've been winning, winning, winning, winning, winning
