

Strangers

DragonForce

Cruising down the streets I'm hiding
Hiding from the danger zone
Underneath the blinding city lights
Lost and far away from home
Deep inside I got a burning fire
No one here to set me free
Wasted times I've been longing for more
But we were

Strangers, in a city burning
Strangers in the night
Danger, can you hear it calling
Time and time again I had to

Understand a reason why
Raise my hands up to the sky
Hide away my tears
Hold on, hold on to my dreams

I know this pain inside, it's growing
A thousand times I've had to stray
But tonight I won't, I'll face it
Instead of trying to hide it away

And far beyond the senses
I'll find the power to set me free
Wasted times
I've been longing for more
But we were

Strangers, in a city burning
Strangers in the night
Danger, can you hear it calling
Time and time again I had to

Understand a reason why
Raise my hands up to the sky
Hide away my tears
Hold on to my dreams

Understand a reason why
Raise my hands up to the sky
All the tears the wind blew high
Are falling down, down on this city tonight

Strangers, in a city burning
Strangers in the night
Danger, can you hear it calling
Time and time again I had to

Understand a reason why
Raise my hands up to the sky
Hide away my tears
Hold on to my dreams

Understand a reason why
Raise my hands up to the sky

All the tears the wind blew high
Are falling down, down on this city tonight

Cause we are strangers
We are strangers
