

# Battle Lines

DragonHeart

Welcome to the somber fields  
A last chance to live and survive  
Pain cuts me down through my vein  
Can I break the enemy?  
Welcome to the darkest reality  
Your dreams die here forever

(Bridge)

You will be welcome to...  
Welcome to my grave  
The enemy sees my dreams  
Nothing will stop my rage

(Chorus)

Battle Lines - Soldiers in the night  
Battle Lines - I see blood everywhere

Death is waiting on the grass  
And hope in our fear  
Run, face the iron and steel  
The rivalry came from the past  
And all the blood is on the ground  
My magic runes will be my guide

(Bridge)

(Chorus)

The storm will come in the end  
The proud of Alliance remains  
These rain are blood and we know it  
That's why we'll be ready to fight
