

# The Battle Sanctuary

DragonHeart

In a holy mission we fell  
We fought to save our kingdom  
We fought to save our families  
I hope their death was not in vain

The legend will tell the tale  
Ashes to ashes, dust to dust  
This is the final end  
This is the final command

(Bridge)

Premonition - That's what you have to see  
Premonition - That's what you have to feel

(Chorus)

In this Battle Sanctuary  
This is your destiny  
In this Battle Sanctuary  
Because death have arrived to me

I walk in the darkness  
I saw the light in the mist  
My blood spread on the grass  
And I kept fighting until the end

And so the battle was won  
With the strength of our hearts  
With our invincible souls  
This the darkness can't defeat

(Bridge)

(Chorus)
