

# Fallen

Dragonlord

Calling father darkness - rise again  
Ascend out of darkness

Cast out from heaven  
Unholy nightmare  
Blade of death - thy broken wing  
Shall be the sword that leads the fallen

Sword that makes the dead come to life  
Liberate damnation  
Sword that stirs a plague full of lies  
Baptize despair

Sworn to tear the world apart  
Unholy nightmare  
Golden age of Babylon  
Ungodly phosphoretic spawn

Spawn that makes the dead come to life  
Creation with no soul  
Spawn that stirs a plague full of lies  
Abomination

Shadows glow in molten rage - slowly burned to dust  
Forever is the nameless one  
That heaven once considered a son  
Fallen  
Angel  
He was not cast out...he jumped!

Damned in black - rise from the mire  
Morning star - astral fire  
Damned in black - rise from the mire  
Morning star - astral fire
