

# Blood for Blood

Dragonsfire

Raging fury under a desert sun  
They've lost control over the killing machine  
Chasing some bastards out of their holes  
Bombing their homes and taking their lives

Their lives

In for the kill, shoot to thrill  
In for the kill, death will take your soul apart  
In for the kill and we pray to god  
In for the kill, blood for blood  
Blood for blood

Behold the power of supremacy  
Crusaders of a modern world  
Taking revenge for a thousand tragic deaths  
Will they be able to justify themselves

Justify

In for the kill, shoot to thrill  
In for the kill, death will take your soul apart  
In for the kill and we pray to god  
In for the kill, blood for blood  
Blood for blood

March for me  
The funeral march  
I do what I'm told, I'm playing your game  
March for me  
The funeral march  
See what I've done, now death is my name  
March for me  
The funeral march  
I'm here for the glory, the fortune and fame  
March for me  
The funeral march  
No one cares if I live or if I die  
No one cares if I live or if I die

Blood - feel the rush  
Blood for blood - hunt them down  
Blood - satisfy me  
Blood for blood - keeps the world go on  
Blood for blood  
Blood for blood
