

Perdition, damnation, all life is sin  
Beginning, creation, god's will within  
2000 years of misinformation, punishment, decline  
nations crawl. Kingdoms fall. Almighty and blind.

I'm the one who fights the world  
Inside your mind  
Heretic  
No more I'll obey your rules  
All mankind  
Heretic

High-handed, law-giving, so long ago  
Demanded Inquisition, holier than though  
Burn the witch and burn the knowledge  
The truth is what you say  
Progression killed by the hand of god  
Nothing new today

I'm the one who fights the world  
Inside your mind  
Heretic  
No more I'll obey your rules  
All mankind  
Heretic

Like the blood inside our veins  
There's a free mind in us all  
Start thinking freely once again  
And you'll never fall

I'm the one who fights the world  
Inside your mind  
No more I'll obey your rules  
All mankind

I'm the one who fights the world  
Inside your mind  
Heretic  
No more I'll obey your rules  
All mankind  
Heretic
