

# Young & Wild

Dragonsfire

A Generation full of dreams  
With ideas and fantasies  
Take the scene as it seems  
We all had that heart of steel

No way, too long to hear the heavy thunder drums  
Guitar screams in the air

80's child, 13 boys  
Follow their music of choice  
Brothers of metal united in steel  
Remember the days when it was easy

Young and wild, wild and free  
Look like a child, feel like a beast  
Last survivor, leap in time  
Here I stand and the scene's standing by my side

After some great years in the scene  
Life did change for most of these

Friendships crashed and came apart  
Only a few of them have kept their metal hearts

Grains of a rock rinse away in the course of time

80's child, 13 boys  
Follow their music of choice  
Brothers of metal united in steel  
Remember the days when it was easy

Young and wild, wild and free  
Look like a child, feel like a beast  
Last survivor, leap in time  
Here I stand and the scene's standing by my side

Young and wild, wild and free  
Look like a child, feel like a beast  
Last survivor, leap in time  
Here I stand and the scene's standing by my side

Young and wild, wild and free  
Look like a child, rock like a beast  
Last survivor, leap in time  
Here I stand and the scene's standing by my side
