

## Bad Faith

DRAIN

Crippling freedom  
Self-corruption  
Forced beliefs  
Sickening ecstasy  
Bad Faith

What the fuck are you scared of?  
Young hearts be free  
Why don't you stop lying to yourself  
Find what you love and let it kill you slowly

Condemned to be free  
Possibility imprisons me

Born with nothing  
Die with it all  
Find purpose  
Feed your soul  
Live in this moment  
Stay in control  
Die for something  
Search alone
